16	0.220	100	1.0 %	5.20	3,432	528

THROUGH-THE-WEAVE TECHNOLOGY

There are many layflat hoses on the market, and as one of the largest suppliers in North America, Midwest Hose offers through-the-weave urethane layflat hose, as we believe it represents the best value for our customers. Compared with hoses made from a blend of nitrile rubber and PVC, urethane hose offers 5X the abrasion resistance, less elongation, and far superior puncture resistance.

MIDWEST HOSE KEEPING THE INDUSTRY CONNECTED.

UNMATCHED RELIABILITY

Founded in 1983, Midwest Hose has worked diligently at becoming one of the largest hose suppliers in North America with a proven track record of providing quality products for over 35 years.

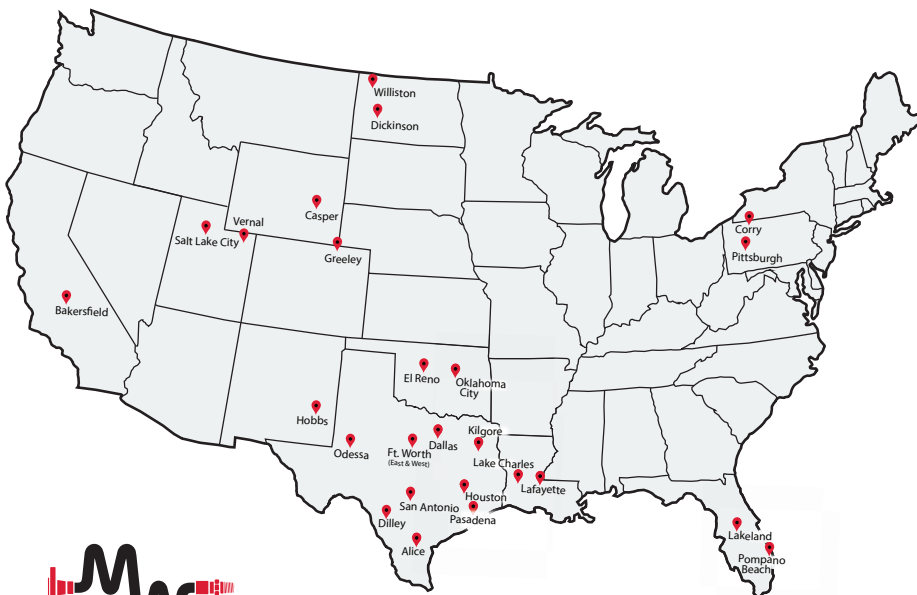

CUSTOMER SERVICE & AVAILABILITY

The most comprehensive product line of any hose distributor – a wide range of industrial hose and fittings that include Layflat, hydraulic, industrial rubber hose, and rotary. Employees are trained to API and NAHAD Hose Assembly Guidelines. All managers, salespeople, and hose assemblers are required to study and pass exams to be certified in each area.

SUPPORT & SERVICE

With 26 locations across the country, we have the facilities, the knowledgeable staff, and the inventory to serve our customers. We also have our new deployment system and several types of fittings made in the U.S.A. Along with a huge inventory and unbeatable service, our goal is to deliver the best overall hose value in the market.
