PRODUCTS

Offering the most comprehensive product line for a hose distributor.

SERVICES

We offer emergency and preventive maintenance and we are proud to provide fast and reliable solutions.

On-Site Mobile Hydraulic Repair

Our mobile service will reduce down time and save you money. Our mobile vans are fully stocked with hydraulic adapters, quick disconnects, gauges, valves, and can provide industrial hose and connections as well.

Hose Testing & Certification

In-house testing includes rupture tests, impulse tests, chemical composition tests, and a phased array of ultrasound tests. Our in-house Spectrometer can test the chemical composition of any fitting.

Hose Retesting

Midwest Hose has the capabilities to retest and certify your industrial hose to insure the hoses you provide for your customers' projects are ready to perform. We can also produce new test certificates to maintain current records.

Hydraulic AACMPV Repair

Our repair facilities can rebuild and test components from nearly every major OEM. We understand the cost of downtime and stock a wide variety of common replacement parts for quick turnaround.

24 Hour On-Call Service

No project is too big or too small. We offer emergency and preventive maintenance and we are proud to provide fast and reliable solutions.

Vendor Managed Inventory (VMI)

An opportunity to further minimize downtime and peak performance by having access to bulk hose, fittings and the crimping tools on-site 24/7.

Product Training & Field Support

We have the trained staff to provide product knowledge as well as the ability to advise you in the field. We are here to support you to make sure you provide the correct product for each application.

Custom Welding & Fabrication

Our in-house machine shop uses the latest in CNC technology to fabricate fittings for development, emergency, or custom product development.
