

TUBE BENDING

PRECISION. SPEED. RELIABILITY.

 **MIDWEST HOSE**
& SPECIALTY, INC

OUR SOLUTIONS:

HIGH-VOLUME OUTPUT

Rapid-fire production meets tight deadlines without sacrificing quality

AUTOMATIC BENDING & FLARING

Remove human error and achieve consistent results, every time

FAST SIZE TRANSITIONS

Seamless switching between tube sizes for maximum efficiency

OEM KIT READY

Built to your exact specifications, delivered with precision

ENGINEERED ACCURACY

Uncompromising repeatability and tight tolerances

WHY CHOOSE US?

Midwest Hose delivers high-speed, automated tube bending from 1/4" to 2", with precise flaring, fast size changes, and OEM kit compatibility. Our process eliminates human error and maximizes repeatability—built on the same reliability, service, and quality that customers trust across all Midwest Hose products.
