

TPU LAYFLAT 400 PSI | SPECIFICATION SHEET

APPLICATION

Designed for compressed air for power tools and compressors

CONSTRUCTION

Tube Polyurethane extruded through the weave

Cover Polyurethane extruded through the weave

Reinforcement Woven polyester

FEATURES

- Temperature -40° to 180° F
- 3 to 1 minimum safety factor
- Excellent abrasion resistance
- Flexible and lightweight to adapt to various terrain and make it possible to easily operate in difficult areas
- Easy to transport, deploy, and store
- Hose and couplings made in the USA
