

VACHR | SPECIFICATION SHEET

APPLICATION

Designed for vacuum truck applications, high temperature abrasives, flying ash, rocks, sands, and other abrasive materials

CONSTRUCTION

- **Tube** EPDM rubber
- **Reinforcement** Metal helical wire

FEATURES

- **Temperature:** -40° to 220° F
- High temperature abrasion resistant suction
- Lightweight, flexible, exposed helix provides easy drag
- Antistatic tube and metal wire can be grounded
